PROFILE SUMMARY

Electronics professional with 2 years at FLP LABS, promoted from Technical Executive to Technical Coordinator. Experienced in team coordination, school project management, robotics, IoT, ESP32, Arduino, Python and technical mentoring.

EDUCATION

2023 - 2025

MES COLLEGE MARAMPALLY

- MSc Electronics
- CGPA 4.31/5

2020 - 2023

MES COLLEGE MARAMPALLY

- BSc Electronics
- CGPA 7.99/10

WORK EXPERIENCE

FLP LABS

2026 - PRESENT

Technical Coordinator

- Promoted from Technical Executive to Technical Coordinator within one year based on performance. Supported advanced projects using Arduino, ESP32, VS Code and Python, coordinated 20+ employees and technical mentors, managed technical tasks and project activities, prepared and submitted monthly reports on time, tracked project progress, and ensured timely project completion.

SKILLS

- Technical Coordination
- Team Coordination – 20+ Employees
- Task Management & Report Submission
- Meeting Deadlines
- C, C++, Python
- ESP32 & Arduino
- Robotics – RoboDog, Robotic Arm, Robot Cars, Drones
- Arduino IDE & VS Code
- Hardware Debugging
- Project Coordination

FLP LABS

2025 - 2026

Technical Executive

- Developed and tested embedded, IoT, robotics and electronics projects using Arduino and ESP32, integrated sensors and electronic components, performed hardware testing and troubleshooting, mentored students in robotics, and guided teams in competitions that achieved 1st, 2nd, 3rd, Top 5 and other positions. Developed practical projects and was promoted to Technical Coordinator within one year based on performance.

PROJECTS

- ClimaNeer – Smart Water Management: Developed an ESP32-based IoT system with sensors, Firebase and automatic pump control.
- AI Smart Robot Car – Disaster Rescue: Developed an ESP32-based rescue robot with wireless control, sensors and automated movement.
- Drowsy Driver Detection System: Developed a safety system to detect driver drowsiness and alcohol consumption.
- Self-Charging Solar Surveillance Drone: Developed a solar-powered drone concept with an automatic charging system.
